

Please ride single file and as far right as possible. There are many steep twisty sections where you must watch your downhill speed, particularly on Boulder Creek Road. There are also some cattle guards that you will cross. Have fun but be careful out there.

The Sunrise Hwy section is an out and back up to the Laguna Visitor section where there will be a rest stop. Please remember you must turn around here! There will be an intermediate unmanned water stop on Sunrise Hwy.

If you are doing the shorter route you do not do the out and back on Sunrise Hwy. You will just head back to Julian at this point.

**Rest stop 2
turnaround**
